Rhythm Shaker

I look into the mirror and do ya know what I see?
It aint the things that you say are in me.
I am so at one with the girl thats by my side.
She sees in me all that I'd ever want to be.

Its been some time for I was young, last time laughs I steal.
I've never known the times we shared, everyday so real.
Hard to keep up and keep out this raw sex appeal.
Freddie said a kind of magic can be only one.

Im not scared to fill you and to thrill you and to spill you out.
Im not scared to fill you and to thrill you and to spill you out.
Im not scared to fill you and to thrill you and to spill you out.
Im not scared to fill you and to thrill you and to spill you out.

Always a laugh, been great fun does it ever have to end?
On the edge we're driving fast coasting through the twisting bend.
However far I travel on this planet I never.
Never find another that is so in tune with me.

Im not scared to fill you and to thrill you and to spill you out.
Im not scared to fill you and to thrill you and to spill you out.
Im not scared to fill you and to thrill you and to spill you out.
Im not scared to fill you and to thrill you and to spill you out.
