Take it down, down, down, down, all the way
Take it round, round, round, round, that's what I say.

Many times I talk about it, people can't live without it, they see through me.
There's no-one beneath my feet, and no-one over my head, but here I fear.
I think I'm going crazy, I just feel so jaded, what to do, wasn't so blue.

Take it down, down, down, down, all the way
Take it round, round, round, round, that's what I say.

Gotta make it right if you wanna beat me, cos I'm easy
Gotta move in tight if you wanna free me, cos I'm easy.

Think I need an anecdote, can't seem to hit a note, they see through me.
Caged like this animal, there's gonna be no rival here, I fear.
I run towards the light, I'm told not tonight, what to do wasn't so blue.

Take it down, down, down, down, all the way
Take it round, round, round, round, that's what I say.

Gotta make it right if you wanna beat me, cos I'm easy
Gotta move in tight if you wanna free me, cos I'm easy.

So what's it gonna be? Will I feel defeat? Will they see through me?
I'm always here in colour, I'll never take a detour, I'm here no fear.
Seeing sound in every direction, what is my reaction, what to do wasn't so blue.
